

ONCAMPUS

June
announcement

We made a commitment to share our plans with you on June 1st and we're pleased to announce some exciting news regarding our **ONCAMPUS Europe** centre plans for the academic year 2020/21.

Please note that in the coming days and weeks, we will be providing you with more detailed information and regular updates regarding our **ONCAMPUS** centres, and Universities USA.

**We're changing our plans so you don't have to change yours.
Come when you're ready.**

International travel remains uncertain. **ONCAMPUS** plans to offer you maximum flexibility. Depending on your circumstances, we have two tailored options for you to choose from:

A.

Start your programme face to face in September*

Travel to Amsterdam or Lund when you're ready, move into your accommodation, join small face to face classes and attend lectures online

B.

Start your programme online

Start learning from your home country with online lectures and classes and travel to Europe when you're ready.

Highlights:

- Start in September face to face or online, to suit you.
- Join face to face at any point between September and December.
- Progress as planned to university in 2021.
- Meet your tutors and make friends in small group classes online or face to face.
- Get ahead in your learning and gain valuable insight into life and study in Europe.

**Don't give up on your plans to study internationally.
Education is more important than ever.**
