ONCAMPUS UK NORTH

Medicine and Life Sciences Pathways 2023-24

Becoming a Doctor

To become a doctor in the UK you first have to obtain a degree in medicine from a medical school that is accepted by the General Medical Council. Courses normally last five years and involve basic medical sciences as well as clinical training on the wards. After graduation from your medical degree, you'll enter the two-year Foundation Programme. You'll be provisionally registered with a licence to practise while completing the first year. Full registration is awarded when you've completed year one.

Our Medicine partners

ONCAMPUS UK North offers pathways to medicine with a number of partner institutions allowing you the opportunity to progress from a Medicine Undergraduate Foundation Programme to a Medicine degree. Some students choose to enter careers related to medicine and these can be accessed after successfully completing the Life Sciences Undergraduate Foundation Programme.

UCLan

UCLan's Medical School, based in Preston in the north of the UK, offers medical training to the highest UK standards. Students will benefit from a state-of-the-art curriculum and facilities which include high-specification clinical skills labs, life-size human simulators, a Human Anatomy Resource and Learning Centre and simulated care settings, such as a GP surgery and patient's home setting.

St George's University, Grenada (SGU)

St George's University, Grenada is a top centre of international education, drawing students and faculty from 140 countries to the Caribbean. The University programmes are accredited and approved by many governing authorities and St. George's is affiliated with educational institutions

worldwide, including the US, the UK &

Canada

University of Nicosia, Cyprus

The University of Nicosia (UNIC)
Medical School is the first and largest
Medical School in Cyprus. Its diverse
student body is made up of more than
900 students coming from all around
the world. The University of Nicosia
Medical School offers progression into
Medicine from the Medicine UFP and
Life Sciences UFP.

Royal College of Surgeons in Ireland (RCSI)

RCSI is the only specialist health sciences university in Ireland and one of the most international in the world with 220 of its undergraduate medicine seats (over 70%) reserved for Non EU students, each year.

Host Partner UCLan

Students looking to study medicine at UCLan will study within the faculty of Clinical and Biomedical Sciences. Facilities include five high-specification clinical skills labs, life-size human simulators, a GP surgery, UCLan's own on-campus dental clinic and a Pharmacy practice suite. The facilities allow students to develop skills in an environment that mirrors what they can expect in placement or in their chosen careers.

The Clinical and Biomedical Sciences Faculty comprises the following Schools:

- School of Medicine and Veterinary Medicine
- School of Dentistry
- · School of Pharmacy and Biomedical Sciences

Veterinary Medicine BVMS - New for 2023

This new course has been developed to meet Royal College of Veterinary Surgeons requirements and will prepare students for a variety of veterinary careers. Students will gain the skills to prevent and treat animal health and welfare problems.

- Experience an immersive and practically-focused curriculum with clinical placements from Year 1
- Students will be supported with a dedicated student well-being programme and have access to a wide range of animal handling, husbandry and clinical facilities
- UCLan is one of the first UK Universities to use Anatomage Tables in Veterinary Medicine teaching

Medicine MBBS

The MBBS will train global doctors through a programme undergoing quality assurance by the UK General Medical Council.

Students will benefit from;

- Patient interaction from year one through UCLan's volunteer Comensus group and embedded placements
- Individually focused teaching and outstanding access to UCLan's bespoke facilities
- Expert staff who are themselves practising clinicians or junior doctors, employed to work with medical students.

"Taught in small groups which results in a high staff to student ratio."

Physician Associate Studies

Physician Associate Studies (Hons) MPAS

Physician Associates (PA) provide care to patients under the supervision of a Consultant or General Practitioner. Their role includes interviewing and examining patients, ordering tests and making decisions about patient management. Students at UCLan will study on the only UK programme offering undergraduate Physician Associate training.

Students will make use of the Human Anatomy Resource Centre and the Paediatric Clinical Skills Lab.

Dentistry

UCLan is the only university in the North West to boast its own on-campus dental clinic which gives all dental students direct access to practical experience in high-end dental work.

Dental clinic

As a Dental Hygiene and Dental Therapy student you will learn clinical skills in one of the most modern phantom head rooms in Europe, housing 40 workstations with phantom head modules, together with the latest in audio-visual technology, ensuring that detailed work can be observed much more easily.

Ranked No.

14

Dentistry
(Guardian University Guide 202

Please note: Dentistry is not available as a progression degree, Dental Hygiene and Dental Therapy are available as progression degrees.

Becoming a Pharmacist

Students who study Pharmacy at UCLan are taught by GPhC registered working pharmacists, pharmacologists, medicinal chemists, biologists, biomedical scientists and pharmaceutics experts. The degree course is designed to equip graduates with all the necessary skills and knowledge to successfully enter their pre-registration year and onto their registration as a qualified pharmacist with the GPhC.

Medical School Facilities

The Human Anatomy Resource and Learning Centres and Clinical Skills Suite

Equipped with specialist industry-standard facilities including:

- Five high-specification skills laboratories that are stocked with a vast range of equipment to help you develop clinical skills
- A purpose-built laboratory designed to train up to 60 medical students at one time
- Life-size human simulators of all ages
- Simulated primary care settings, including a GP surgery and patient's home setting
- Anatomage medical virtual dissection tables to learn 3D male and female anatomy and regional anatomy.

Faculty of Health and Wellbeing

This faculty is one of the largest providers of healthcare and sports education and courses are available that lead to eligibility for professional registration. Students have access to work-based learning and industrial placements within a diverse range of partner provider organisations across Lancashire.

The Faculty of Health and Wellbeing comprises the following Schools:

- School of Nursing
- School of Sport and Wellbeing
- School of Social Work Care and Community
- School of Health Sciences

Progression Degrees:

BA (Hons) Counselling and Psychotherapy Studies

BSc (Hons) Nutrition and Exercise Sciences

BSc (Hons) Sexual Health

BSc (Hons) Sport and Exercise Science

BA (Hons) Sports Coaching and Development

BA (Hons) Sports Coaching and Performance

BSc (Hons) Sports Therapy

BSc (Hons) Physiotherapy

Health and Wellbeing Facilities

A simulated learning experience is provided for health students within contemporary skills laboratories including a hospital ward, operating theatre, high dependency unit, cardiac resuscitation suite, an ambulance, a midwifery suite, a children and neonatal unit, a community flat and counselling and consultation rooms.

Becoming a Physiotherapist

Becoming a physiotherapist means you can play a key role in enabling people to improve their health, wellbeing and quality of life. It's a profession that works with people to identify and maximise their ability to move and function – an essential part of what it means to be healthy. To be able to practice as a physiotherapist in the UK you must be registered with the Health and Care Professions Council (HCPC), the awarding body, once you have a physiotherapy degree you are eligible to register with HCPC.

Physiotherapy

BSc (Hons) Physiotherapy at UCLan is ranked 1st in the UK with 100% of students satisfied with their course (National Student Survey 2020). It is approved by the HCPC and the Chartered Society of Physiotherapy (CSP). UCLan is ranked 1st in the UK with 100% of students in graduate-level work or further study after graduating (Complete University Guide 2021).

Students will be taught in purpose built rehabilitation and assessment facilities, which include a therapy clinic and movement analysis laboratory. Students will complete approximately 1,000 hours (29 weeks) of assessed clinical practice.

Partner Royal College of Surgeons in Ireland

About RCSI

Established in 1784, RCSI is the only specialist health sciences university in Ireland. Today, RCSI is home to the largest medical school in Ireland and one of the most international medical schools in the world with 220 of its undergraduate medicine seats (over 70%) reserved for Non EU students each year. RCSI also offers undergraduate degree programmes in Graduate Entry Medicine, Pharmacy and Physiotherapy.

Ranked in the

top 2%

of universities worldwide

(Times Higher Education World University Rankings 2022)

Medicine

RCSI offers a 5 and 6 year entry route to its undergraduate medicine programme, depending on your qualifications. In the early years of the programme, you will receive a solid foundation in the sciences and study the normal functioning of a healthy body.

The course is delivered through systems based modules where you learn everything to do with the various systems of the body, such as the cardiorespiratory and gastrointestinal systems and how they function in a healthy body. You will be taught anatomy through cadaveric dissection in the infamous RCSI Anatomy Room dating back to 1812. Later on in the programme, you will learn about the common diseases of the body and how to diagnose them using a combination of patient history, physical examination and diagnostic investigations.

- You will be taught by experts in healthcare education, world-class researchers and top specialists in their field
- Clinical skills training will be within Europe's largest and most modern clinical simulation facility
- Students are exposed to clinical environments such as hospitals, clinics and pharmacies early-on and are taught by experienced working clinicians
- RCSI graduates are recognised throughout the world and are eligible to practice in almost every country.

One of the most international medical schools in the world with over 70% of its undergraduate medicine seats reserved for non-EU students

Royal College of Surgeons in Ireland

MPharm (5 years)

The RCSI MPharm degree is a highly prestigious, internationally recognized qualification, allowing its graduates to register with the Pharmaceutical Society of Ireland and practice as fully qualified pharmacists throughout Ireland and the EU, immediately after graduation.

- RCSI's MPharm is a Level 9 postgraduate qualification allowing Non EU graduates eligibility to apply for a two year work visa in their final year of studies
- Students complete a community pharmacy placement over a 12 week period in year two and unique to RCSI, complete a number of Rotational Hospital Pharmacy Placements in maternity, paediatric, psychiatric and cancer care hospital sites as well as a Mental Health First Aid training course in year three
- Students spend most of years four and five on placement in a variety of work environments including community pharmacy, the pharmaceutical industry, education and other non-traditional settings.
- Year five concludes with the Professional Registration Examination (PRE), enabling graduates to practice as fully registered pharmacists in Ireland and the rest of the EU.

Physiotherapy (3/4 years)

Students undertake training and education in a variety of clinical settings and in the second year, most of your clinical training takes place on campus where you will get a solid foundation in basic physiotherapy skills in preparation for six sets of five-week clinical placements in the third and fourth year.

- You will undertake 1,000+ hours on a full time block basis and as an RCSI Physiotherapy graduate, you will be career ready and in high demand with a highly portable degree.
- Many graduates have found employment all over Europe, Singapore, Hong Kong, Australia and North America.

Facilities

Offering the most advanced clinical simulation facility in Europe, RCSI's building in the heart of Dublin provides surgical and clinical simulation training suites, standardised patient and task training rooms, a 540 seat auditorium, a library spanning three floors with 500 study spaces, an inter-varsity sized sports hall, a large fitness suite and a variety of other recreational facilities.

Located in the heart of Dublin city centre, a dynamic European capital city, steeped in history

Partner St. George's University, Grenada

About St. George's University

St. George's University (SGU), Grenada is a top centre of international education, drawing students and faculty from 140 countries to the Caribbean. The University programs are accredited and approved by many governing authorities and St. George's is affiliated with educational institutions worldwide, including the United States, the United Kingdom, Canada, Australia, and Ireland.

St. George's University graduates have been licensed in every state in the United States, as well as in Canada and the United Kingdom, and have practised in more than 50 countries around the world.

Partnership with Northumbria University enables MD students to undertake the

first two years* of Medicine study in the UK

*preclinical year and the first year basic sciences

Partner St. George's University, Grenada

About St. George's University

Doctor of Medicine

The Doctor of Medicine programme opens doors for a medical career on an international scale, having been accredited and/or approved by many external regulatory and accrediting bodies.

- In the first years of the programme, students receive instruction in preclinical sciences on the beautiful True Blue campus in Grenada
- During the final two years, students complete the clinical experience in SGU's wide array of clinical hospital affiliates in the US and UK
- Clinical training emphasizes responsibility, maturity, and compassion in the development of professional excellence
- Students learn how to conduct themselves as physicians, take responsibility, work harmoniously with professional colleagues, and exhibit maturity.

Veterinary Medicine

SGU's veterinary medicine programme offers students a unique, innovative, and international approach to veterinary medicine. The programme integrates basic science curriculum into clinical practice with the use of simulation models, case-based teaching, and 5:1 student-to-faculty ratios.

SGU veterinary medicine students also gain hands-on training a year earlier than in most programmes through the on-campus Small Animal Clinic and Large Animal Facility providing students with a level of hands-on training and experience not often seen until the final year of veterinary education.

Partner University of Nicosia, Cyprus

About University of Nicosia

The University of Nicosia (UNIC) is the largest university in Cyprus, that teaches primarily in English, with more than 12,000 students from over 70 countries across the globe. Located in Nicosia, the country's capital, UNIC is driven by a pursuit of excellence in teaching and learning, innovation, research, technology, and a continually evolving academic environment.

The Medical School at UNIC is the first and largest Medical School in Cyprus.

99.4%

employment rate, with students working at over 200 medical centres around the world

Doctor of Medicine

Students learn through case studies and have small group tutorials for most of their courses. In addition, there is a strong emphasis on the social sciences including medical ethics and sociology.

Curriculum development has focused on the guidelines of professional bodies, such as the General Medical Council of the UK (GMC), which places particular emphasis on social sciences because patients are social beings and clinicians benefit substantially from learning about the social aspects of health and illness and social health behaviour.

UNIC is now ranked within the top

601-800 universities in the world

Doctor of Veterinary Medicine (5 years)

We have had plenty of support in preparation for our university interviews, including practice panel interviews which really helped calm my nerves before the real thing.

They have supported my every step so I feel very privileged to study here

Ahmed Hussain Ali, Iranian
Studied: Medicine Foundation
Programme
Progressed to: MBBS at UCLan

I wanted to study in the UK because the quality of education is better than in my home country, especially in the medical field. The multi-national environment of Preston was really important to me as you get to know people from different countries and to explore cultures and that's really important if you want to become a Doctor as you'll be in contact with lots of patients of different nationalities. I made really good friends, family, at UCLan, the teachers are really professional yet friendly which is a great skill. The **ON**CAMPUS programme helped prepare me for my medical degree not only through the academic subjects studied but also in the practical elements we had. There are training sessions, lots of practice interviews, role plays and consultations where someone comes in to consult you and you have to treat them as if they were a real life patient. Preston itself, is a great location, a small city, mainly composed of students, with a good night life and close to Manchester.

Catherine Ajalo, Nigerian
Progressing to: BSc (Hons)Biomedical
Sciences at UCLan

There are so many things we have done in class - I didn't think I would learn so much. My teachers are very helpful and they make you feel comfortable, they are easy to approach if you need to ask any questions. I enjoy the lab work and research the most as I'd like to find cures for certain diseases that haven't been found yet. I've learnt so much about other cultures and I've picked up other languages too! Out of class, I've joined Zumba and attend events at the Student Union which is great as we get to interact with students at the University. My time at **ON**CAMPUS has really helped me to grow academically and personally and it has been an enjoyable experience.

For more information visit:
