An International Experience

With an established network of around 280 partnerships with renowned foreign institutions, KEDGE offers a wide range of opportunities for students to combine study and experience abroad, through exchange programmes and double degrees.

Students develop the tools to understand cultural, social and economic contexts in order to be confident in the professional world, immerse themselves in a different culture, experience different teaching methods, develop openness and agility, acquire a global perspective, improve or learn a foreign language and create an international network.

Entrepreneurship at KEDGE

With entrepreneurship firmly embedded in its pedagogy, KEDGE Entrepreneurship was created to develop the entrepreneurial know-how of students. KEDGE offers three entrepreneurship support programmes for beginners or experienced entrepreneurs, with many KEDGE programmes providing training in entrepreneurship as part of their programme.

Business Creator:

For students who want to be an entrepreneur and who have an idea.

Students will develop skills on startup methods and entrepreneurial posture and discover the principles of the lean startup approach.

Business Nursery:

For those who want to get started.

KEDGE gives support in the creation of a startup, confronting the product or service with the reality of the market by putting entrepreneurs in touch with KEDGE partner companies. KEDGE facilitates obtaining funding for the seed phase via KEDGE institutional partners and companies.
