# CAMPUSES

The University has a number of campuses in Southampton, one in Winchester and Malaysia, each with its own distinct character and community. **ONCAMPUS** Southampton is located a short walk from the city centre and the University's Highfield Campus.

## Highfield Campus

Highfield is the largest campus of the University, home to both historic buildings and cutting-edge research and teaching facilities - it is the academic heart of the University. Highfield has seen recent investment in the Centenary Building which houses an 80-seat Harvard lecture theatre, private pod study spaces, and bookable seminar rooms.

Highfield is a hub of activity including social events, sports facilities, the Students' Union and plenty of beautiful green spaces. This makes it the perfect place to study, relax, and socialise with new friends as the space has shops, bars, a cinema and gym - all in one place.

## Boldrewood Innovation Campus

Boldrewood is the newest campus at the University, located a five minute walk away from the Highfield Campus and near the Southampton Common.

It's home to the UK's largest university-business partnership with Lloyd's Register, who have been collaborating on research projects which focus on marine engineering and engineering sciences for over 40 years. It has a number of world-class testing and research laboratories, including a driving simulator, design studios and £138m towing tank.

## Avenue Campus

Another five minute walk from Highfield and on the edge of the Southampton Common, beautiful and historic Avenue Campus is a hub for most humanities subjects.

Avenue has a range of innovative and contemporary facilities that allow students to study and research through cutting edge technology, like virtual reality, 3D scanners and printers and a 360 degree fully immersive audio-visual centre. Avenue is also home to a state-of-the-art £3m Archaeology building, lecture theatres and the Avenue Café.

## Waterfront Campus

Located on Southampton's waterfront at the National Oceanography Centre Southampton (NOCS), this campus is close to the city centre and is just a short bus ride away from the Highfield Campus.

NOCS hosts one of the world's largest groups of scientists and engineers devoted to research, teaching and technology development in ocean and earth science. The campus is comprehensively equipped with an extensive array of instrumentation and laboratory facilities including the Coral Reef Laboratory and research aquarium.

## Winchester School of Art (WSA)

Located in the centre of the historic city of Winchester, nestled in green parkland, WSA is a vibrant hub for students in art, games design, fashion design and other creative courses.

With creative ambition at its core, WSA supports students with cutting-edge resources including specialist computer suites, photography studios, laser cutting, 3D printing, industrial sewing and knitting machines, screen printing and more.

The campus is just a 20 minute train journey to Southampton and there are regular bus services between Winchester and Southampton.
